

Be Sweet On The Perfect Accessory For Any Little Spongecake

The perfect shopping accessory for cookery lovers and dedicated followers of the latest cupcakes craze is now available from fashion-conscious bag-in-a-pouch company, Fizbag.

Its Original Fizbag range features a divine reusable shopping bag called Cupcakes, as deliciously yummy and irresistible as the real thing and a perfect shopping accessory for anyone wishing to create a talking point.

Lemon and pink coloured cakes feature against a pale, pink-tinged background, to create a divine, girly bag that will prove to be the ultimate temptation for any sweet-toothed princess out and about this Springtime.

The arrival of the bag is timed perfectly for those wishing to create cupcake heaven for a loved one on Valentine's Day, by carrying in a home delivery of mouth-watering cakes that will both wow and woo. The cupcakes bag will remain as a reminder of this romantic gesture, long after the cakes are devoured and only the crumbs remain.

The icing on the cake is that the Fizbag Cupcakes bag is priced at just £4.10, measures just 11cm x 6cm when housed inside its dinky, matching pouch, but expands to a size of 35cm x 40cm when unfolded. When in use, the pouch fastens on to a clip inside the bag, so there's no chance of losing it.

Weighing just 30g, and with memory folds to help you get it back in its pouch, it is the perfect little shopping ally for any little spongecake to keep in her handbag, ready to use as an alternative to harmful plastic.

To bag your Cupcakes Fizbag head to www.fizbag.com to order. If you wish to share the love amongst the girls, the top tip is to buy four or more and benefit from free postage.
